- ▶ Served as PAACS faculty in Malawi
- ▶ Served as faculty at Mbingo Baptist Hospital
- ▶ Building a hospital for PAACS in eastern DRC

Dr. Jean Yaradouno – Hope Clinic, Guinea

Guinea, West Africa

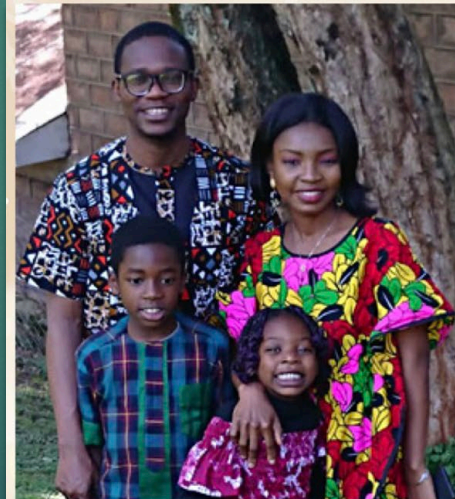

Dr. Frida Bosire

- ▶ A graduate from Tenwek Hospital, Kenya, serving among the poor in Nairobi

DR. AKINNIYI FADIPE

- ▶ In July, 2016, Dr. Fadipe developed Ebola Fever and nearly died. He survived by God's grace, good care from the doctors, and his wife's prayers and ministrations.

The Fadipe family

After his recovery from Ebola, Dr. Fadipe was able to donate blood, which was used to develop the Ebola vaccine.

Dr. Wotango Abeneezer

- ▶ Pediatric orthopedic resident, Soddo Christian Hospital, Addis Ababa, Ethiopia

Dr. Matthew Kolley, General Surgery Resident

- ▶ “in 2004, I was bedridden and reaching my weakest point, from an unknown illness. I fasted and prayed, pleading for healing and fully committing my life to the Lord. U asked God to transform a piece of bread and a cup of water into my only medication. As I consumed them, I was overcome with sweat and renewed strength! Within an hour I knew I had been miraculously healed, and it was indeed the end of my illness.”

Dr. Brad-Lot Igiraneza

- ▶ "We got married on August 13, 2022 at the Evangelical Friends Church of Kamenge, in Burundi. We are thankful as God created a way to meet each other, and now live together. Pray for us, as we wish to serve Him wherever He wants."
- ▶ Dr. Igiraneza is a PAACS General Surgery Resident at SIM Galmi Hospital, in Niger.

Dr. Keir Thelander, Executive VP of PAACS

- ▶ Dr. Keir Thelander comments: from any other training program? While our PAACS programs offer superb surgical training that fits Africa's local contexts, I believe it is our goal of discipleship that most distinguishes us. Living life together, which includes working, studying, worshiping, praying, eating, crying, laughing...doing everything with our residents for their five years, resembles the model that Christ modeled with his disciples. So, while we clearly intend to offer the best surgical education possible, we also deeply desire that residents are given every opportunity to deepen their faith, grow in their spiritual commitment, and mature as disciples of Christ during their residency.

Are you encouraged?

- ▶ I hope you have seen in these testimonies the presence and continuing work of the Holy Spirit, and these our disciples go out and turn Africa upside down for Jesus Christ and His Kingdom!
